Professional Summary

Compassionate and detail-oriented Registered Nurse with over 7 years of experience in labour and delivery at Southlake Regional Hospital. Highly skilled in patient education, emotional support, and coordinating care for women and families. Adept at working within an interdisciplinary team to provide patient-centered care, support ethical decision-making, and deliver high-quality outcomes. Strong background in phlebotomy, IV insertion, procedural assistance, and patient counseling. Seeking to leverage expertise in women's health and reproductive care in a fertility nursing role.

Professional Experience

Southlake Regional Health Centre
Registered Nurse (Birthing Unit)

Neumarket, ON
Jan 2018 - Current

- Educated patients on labour and delivery processes, postpartum care, and breastfeeding techniques.
- Assisted in Caesarean sections (C-Sections) and high-risk deliveries, ensuring patient safety and adherence to protocols.
- Completed thorough physical assessments and implement individualized care plans based on ongoing evaluations.
- Fostered therapeutic relationships with patients and families regarding birth plans, pregnancy complications, postpartum recovery, etc.
- Provided emotional support for families experiencing complications, loss, or unexpected outcomes.
- Assisted physicians with various procedures, including epidurals, fetal monitoring, and emergency interventions.
- Performed IV insertions, phlebotomy, and medication administration as part of routine patient care.
- Ensured compliance with infection-control policies, patient safety protocols and more.
- Worked closely with obstetricians, midwives, and allied health professionals to coordinate seamless patient care.
- Served as a mentor and preceptor for new nurses and students, supporting skill development and best practices.
- Active participation in quality improvement and patient safety initiatives.
- Supported diverse patient populations, ensuring a safe and inclusive environment.
